|  |             |
|--|-------------|
| BSc (Hons) Computing Islington<br>College London Metropolitan<br>University Kamal Marg,<br>Kamalpokhari, Kathmandu | 2022 - 2025 |
| +2 (SLC) DAV College National<br>Examination Board(NEB)<br>Dhobighat, Lalitpur                                     | 2020 - 2022 |
| SEE Future Stars High School<br>National Examination Board(NEB)<br>Jawalakhel, Lalitpur                            | 2020        |

## EXPERIENCE

2024 - 2025 (4 months)  
Fullstack Developer Internship  
Krafter's Technology Pvt.Ltd

- Drawing concept of developing a Fullstack web app on client's request.

## TECHNICAL SKILLS

- Javascript
- Reactjs & Tailwind css
- Nodejs
- MongoDB
- Postgresql
- ASP .NET
- Figma wireframes

## SOFT SKILLS

- Problem Solving
- Communicating skills
- Time management
- Adaptivity
- Learning ability
- Good listener
- Creativity

# PROJECTS

## MERN STACK

### JOB PORTAL (WORKBLOOM)

Git: FRONTEND BACKEND

- Designed and developed a Web App with backend on NodeJs, ExpressJs & MongoDB database & frontend using Reactjs & Tailwindcss
  - A full-stack web app featuring admin and user roles. Admins manage job, companies and applicants, while users can build profiles, use advanced filters, bookmark jobs, and apply. The platform's unique selling feature is an intelligent skill-matching system that automatically applies to jobs with a 70%+ match, sending the user's CV and application details to the job's admin.
- 

## ASP .NET CORE WEB API

### ONLINE BOOKSTORE WEB APPLICATION (INKSPIRE)

Git: FRONTEND & BACKEND

- Designed and developed a C# .Net Web App with backend on ASP .net core web api & Postgresql database & frontend using Reactjs.
  - Developed a feature-rich e-commerce platform for a private book library store. Users can browse a searchable and advanced filterable catalog. Key features include category tabs (e.g., Bestsellers, New Releases, Deals), Wishlist, cart, cancelable orders, in-store pickup with email-based claim code, and a review system for purchased books. The platform includes a discount system offering 5% off for 5+ books and a 10% stackable loyalty discount after 10 successful orders. Admins manage books, inventory, timed discounts, and announcements, while staff verify claim codes to process orders. Members receive real-time notifications for admin announcements and order updates. And receives an email whenever an order is placed, canceled, or confirmed. The system emphasizes clean code, modular architecture, proper error handling, and Git-based version control for collaborative development.
-

# REACTJS

## FRONTEND STATIC MEDICAL WEB APP (MEDICARE)

Git: [FRONTEND](#)

- Designed a responsive, single-page medical web application using React.js with an attractive and user-friendly UI. Focused on clean layout, smooth navigation, and modern design principles for optimal user experience.
